5 MAN BOOT WASH**PRODUCT**

Bootwash

MINIMUM HIRE PERIOD

P.O.A

The perfect solution for stopping dirty boots leaving their mark where it is not wanted!

A "stand alone" boot wash station requiring only a water feed is the complete remedy for preventing the walked transfer of dirt from site to offices, buildings or any other clean environment.

Site personnel can quickly and effectively clean their footwear prior to entering any clean zone saving time and costs incurred through unnecessary remedial cleaning, wear and tear of floor coverings and with minimal environmental impact.

Unit comfortably accommodates 5 people with anti slip steel foot platform built using rugged S275 steel plate & box section, reinforced rubber water hose and durable spray nozzles. Standard 25mm alkaphene water fitting and 3" waste outlet.

Wide range of Boots & Overshoes available to purchase.
